FRANK'S INDUSTRIAL SHARPENING
A FUELBOX COMPANY

CERTIFIED SUPPLY & SHARPENING PARTNER
Experts in Helping You Get the Best Cut for the Right Application

HCT HILL COUNTRY TOOL
CERTIFIED PARTNER

CIRCULAR SAW BLADES.

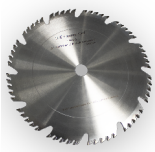
Tell us the material and the machine. We will tell you which one to run — then sharpen it for the life of the blade.

J27
GENERAL PURPOSE
10″ × 40T · ATB · H=10

J15
CROSSCUT
10″ × 60T · TCG · H=10

J41
RIP
10″ × 24T · FTG · H=20

1H1
GLUE JOINT
10″ × 30T · TCG · H=20



J17
COMBINATION
12″ × 60T · R+ATB · H=15

J31
MELAMINE & LAMINATE
8″ × 64T · HATB · H=−5

H77
SOLID SURFACE
10″ × 72T · MTCG · H=0

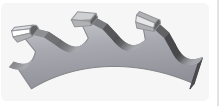
H78
NON-FERROUS
10″ × 80T · TCG · H=−5

T0171
CHOP & MITER
12″ × 80T · ATB · H=−5

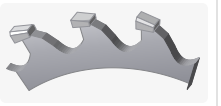
WHICH GRIND, AND WHY

ATB
Crosscut — clean both faces

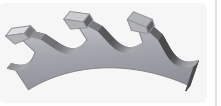
HATB
Melamine — no chip either side



TCG
Solid surface & non-ferrous



MTCG
Finer finish, shallower chamfer



FTG
Ripping with the grain

R+ATB
Combination — rip and crosscut

INDASA ABRASIVES

Two disc lines cover almost everything a shop sands. Part number is the series then the grit — 52-120 is a 5″ Rhynogrip at 120.

52 SERIES
RHYNOGRIP WHITE LINE
Hook & loop · 5″ solid, no dust holes

GRITS STOCKED
80 · 100 · 120 · 150 · 180 · 220

W01–W06
Comes off and goes back on — change grit and return to a part-used disc. 50 per box.

50 SERIES
RHYNOSTICK WHITE LINE
PSA self-adhesive · 5″ solid

GRITS STOCKED
100 · 120 · 150 · 180 · 220 · 320 · 600 · 800

Y60–Y67
Sticks once, sits dead flat, cuts harder. Easy Release Tabs. 100 per box.

ITEM	DESCRIPTION
W01	5" Indasa Rhynogrip H & L 80 Grit 52-80
W02	5" Indasa Rhynogrip H & L 100 Grit 52-100
W03	5" Indasa Rhynogrip H & L 120 Grit 52-120
W06	5" Indasa Rhynogrip H & L 150 Grit 52-150
W04	5" Indasa Rhynogrip H & L 180 Grit 52-180
W05	5" Indasa Rhynogrip H & L 220 Grit 52-220

ITEM	DESCRIPTION
Y60	5" Indasa Rhynostick PSA 100 Grit 50-100
Y61	5" Indasa Rhynostick PSA 120 Grit 50-120
Y62	5" Indasa Rhynostick PSA 150 Grit 50-150
Y63	5" Indasa Rhynostick PSA 180 Grit 50-180
Y64	5" Indasa Rhynostick PSA 220 Grit 50-220
Y65	5" Indasa Rhynostick PSA 320 Grit 50-320

18 belt sizes in the line in 3″–6″ widths and 50–150 grit, alongside 84 circular blades. Rhynogrip comes off and goes back on; Rhynostick sticks once and cuts harder — tell your rep the pad you run.

THEN SEND IT BACK
EVERY BLADE HERE IS RESHARPENABLE

CNC GROUND
On continuously filtered oil, then inspected and wax-coated before it goes back on the truck.

TIPS REPLACED
A missing tooth is a re-braze, not a new blade.

MARKED AS YOURS
Every blade goes back carrying your information and its specs.

Full Catalog

- ✓ **CNC Saw Blade Grinding —** Ground on continuously filtered oil, inspected, wax-coated
- ✓ **Tip Replacement & Re-brazing —** Carbide tips replaced, not the whole blade
- ✓ **Angle Grinds —** Regrind to a different tooth geometry when the job changes
- ✓ **Router & Drill Bits —** Carbide and HSS, resharpened rather than replaced
- ✓ **Planer & Jointer Knives —** Ground flat and matched as a set
- ✓ **End Mills & Paper Knives —** Reconditioned to spec
- ✓ **Surface Grinding —** Flat grinding, in house
- ✓ **Cold Saws —** Supplied & sharpened
- ✓ **Annular Cutters —** Mag-drill cutters reground — service only
- ✓ **Specialty Blades —** Non-standard and custom profiles

Gabriel Curry with Carolynn & Frank Veltrup, January 2026 — passing the torch under the sign Frank hung in 1997.

The new sign on Lenox Avenue — same shop, same crew, new name on the wall.

OUR STORY

THREE DECADES OF PRECISION

— and a promise that never dulls.

In 1997 Frank and Carolynn Veltrup opened Frank's on a simple belief: the quality of a cut can make or break a day's work, and the people who keep America's saws running deserve to be treated like partners, not transactions. For nearly thirty years that belief built a reputation you cannot fake.

In January 2026 they passed the torch to Gabriel Curry and the Fuelbox Industrial family — a partner who shares their obsession with doing the work the right way. What changed is the support behind the scenes: deeper resources, national reach, faster coordination. What did not change is everything you actually count on.

1997

Frank & Carolynn Veltrup found Frank's Industrial Sharpening & Sales in Jacksonville, Florida.

2024

Fuelbox Industrial launches its in-house resharpening program for the pallet industry.

2026

Frank's joins the Fuelbox family — same team, same shop, stronger support behind it.

'97 SINCE

30 YRS OF TRUST

1 STANDARD

"Our customers trust us because our knowledge, equipment, and quality aren't easy to replicate."
— FRANK VELTRUP, FOUNDER

MEMBER · INTERNATIONAL SAW & KNIFE ASSOCIATION

The trade body for saw and knife manufacturing, sharpening and service since 1965. Certified Hill Country Tool partner, and we supply, service and advise on Freud/Diablo, CMT, Whiteside, Orion, Qualtool, Skarpaz, Southeast Tool, Drill America, Velepec, Indasa, Oshlun, Alliance Knife and Meisenheimer.

CUSTOM & SPECIALTY TOOLING

Frank's can advise on all custom and specialty tooling needs for woodworking and metalworking applications. Not sure which brand or cut will give you best value long-term? With regular sharpening and maintenance factored into the equation, Frank's can help you find the right cut for your shop's unique needs. **Call your Account Executive or the shop today at 904-387-1919.**
